

1. Violence and Incitement

I. Violence and Criminal Behavior

Policy Rationale

We aim to prevent potential offline harm that may be related to content on Facebook. While we understand that people commonly express disdain or disagreement by threatening or calling for violence in non-serious ways, we remove language that incites or facilitates serious violence. We remove content, disable accounts, and work with law enforcement when we believe there is a genuine risk of physical harm or direct threats to public safety. We also try to consider the language and context in order to distinguish casual statements from content that constitutes a credible threat to public or personal safety. In determining whether a threat is credible, we may also consider additional information like a person's public visibility and the risks to their physical safety.

In some cases, we see aspirational or conditional threats directed at terrorists and other violent actors (e.g. Terrorists deserve to be killed), and we deem those non credible absent specific evidence to the contrary.

Do not post:

Threats that could lead to death (and other forms of high-severity violence) targeting people or places where threat is defined as any of the following:

- Statements of intent to commit high-severity violence; or
- Calls for high-severity violence including content where no target is specified but a symbol represents the target and/or includes a visual of an armament to represent violence; or
- Statements advocating for high-severity violence; or
- Aspirational or conditional statements to commit high-severity violence

Content that asks or offers services for hire to kill others (for example, hitmen, mercenaries, assassins) or advocates for the use of a hitman, mercenary or assassin against a target.

Admissions, statements of intent or advocacy, calls to action, or aspirational or conditional statements to kidnap a target.

Threats that lead to serious injury (mid-severity violence) towards private individuals, unnamed specified persons, minor public figures, high risk persons, or high risk groups where threat is defined as any of the following:

- Statements of intent to commit violence; or
- Statements advocating violence; or

Calls for mid-severity violence including content where no target is specified but a symbol represents the target; or
Aspirational or conditional statements to commit violence; or
Content about other target(s) apart from private individuals, minor public figures, high risk persons, or high risk groups and any credible:

Statements of intent to commit violence; or

Calls for action of violence; or

Statements advocating for violence; or

Aspirational or conditional statements to commit violence

Threats that lead to physical harm (or other forms of lower-severity violence) towards private individuals (self-reporting required) or minor public figures where threat is defined as any of the following:

Private individuals (name and/or face match are required) or minor public figures that includes:

Statements of intent, calls for action, advocating, aspirational or conditional statements to commit low-severity violence

Imagery of private individuals or minor public figures that has been manipulated to include threats of violence either in text or pictorial (adding bulls eye, dart, gun to head, etc.)

Content that exposes the identity or locations affiliated with any individual who is alleged to be a member of a designated and recognizable at-risk group, share familial and/or romantic relationships with a member of an at-risk group or have performed professional activities in support of an at-risk group (except for political figures).

Instructions on how to make or use weapons if there's evidence of a goal to seriously injure or kill people, through:

Language explicitly stating that goal, or

Photos or videos that show or simulate the end result (serious injury or death) as part of the instruction

Unless the aforementioned content is shared as part of recreational self defense, for military training purposes, commercial video games, or news coverage (posted by Page or with news logo)

Providing instructions on how to make or use explosives:

Unless there is clear context that the content is for a non-violent purpose (for example part of commercial video games, clear scientific/educational purpose, fireworks, or specifically for fishing)

Any content containing statements of intent, calls for action, or advocating for high or mid-severity violence due to voting, voter registration, or the outcome of an election

Misinformation and unverifiable rumors that contribute to the risk of imminent violence or physical harm.

Statements of intent or advocacy, calls to action, or aspirational or conditional statements to bring weapons to locations, including but not limited to places of worship, educational facilities or polling places (or encouraging others to do the same).

2. Dangerous Individuals and Organizations

I. Violence and Criminal Behavior

Policy Rationale

In an effort to prevent and disrupt real-world harm, we do not allow organizations or individuals that proclaim a violent mission or are engaged in violence to have a presence on Facebook. We assess these entities based on their behavior both online and offline, most significantly, their ties to violence. Under this policy, we designate individuals, organizations, and networks of people. These designations are divided into three tiers that indicate the level of content enforcement, with Tier 1 resulting in the most extensive enforcement because we believe these entities have the most direct ties to offline harm.

Tier 1 focuses on entities that engage in serious offline harms - including organizing or advocating for violence against civilians, repeatedly dehumanizing or advocating for harm against people based on protected characteristics, or engaging in systematic criminal operations. Tier 1 entities include terrorist, hate, and criminal organizations. We remove praise, substantive support, and representation of Tier 1 entities as well as their leaders, founders, or prominent members. Tier 1 includes hate organizations; criminal organizations, including those designated by the United States government as Specially Designated Narcotics Trafficking Kingpins (SDNTKs); and terrorist organizations, including entities and individuals designated by the United States government as Foreign Terrorist Organizations (FTOs) or Specially Designated Global Terrorists (SDGTs). We remove praise, substantive support, and representation of Tier 1 entities as well as their leaders, founders, or prominent members.

In addition, we do not allow content that praises, substantively supports, or represents events that Facebook designates as violating violent events - including terrorist attacks, hate events, multiple-victim violence or attempted multiple-victim violence, multiple murders, or hate crimes. Nor do we allow praise, substantive support, or representation of the perpetrator(s) of such attacks. We also remove content that praises, substantively supports or represents ideologies that promote hate, such as nazism and white supremacy.

Tier 2 focuses on entities that engage in violence against state or military actors but do not generally target civilians -- what we call “Violent Non-State Actors.” We remove all substantive support and representation of these entities, their leaders, and their prominent members. We remove any praise of these groups’ violent activities.

Tier 3 focuses on entities that may repeatedly engage in violations of our Hate Speech or Dangerous Organizations policies on-or-off the platform or demonstrate strong intent to engage in offline violence in the near future, but have not necessarily engaged in violence to date or advocated for violence against others based on their protected characteristics. This includes Militarized Social Movements, Violence-Inducing Conspiracy Networks, and individuals and groups banned for promoting hatred. Tier 3 entities may not have a presence or coordinate on our platforms.

We recognize that users may share content that includes references to designated dangerous organizations and individuals to report on, condemn, or neutrally discuss them or their activities. Our policies are designed to allow room for these types of discussions while simultaneously limiting risks of potential offline harm. We thus require people to clearly indicate their intent when creating or sharing such content. If a user's intention is ambiguous or unclear, we default to removing content.

In line with international human rights law, our policies allow discussions about the human rights of designated individuals or members of designated dangerous entities, unless the content includes other praise, substantive support, or representation of designated entities or other policy violations, such as incitement to violence.

Please see our [Corporate Human Rights Policy](#) for more information about our commitment to internationally recognized human rights.

- We consider a homicide to be a mass murder if it results in three or more deaths in one incident

6. Suicide and Self-Injury

II. Safety

Policy Rationale

In an effort to promote a safe environment on Facebook, we remove content that encourages suicide or self-injury, including certain graphic imagery, real-time depictions and fictional content that experts tell us might lead others to engage in similar behavior. Self-injury is defined as the intentional and direct injuring of the body, including self-mutilation and eating disorders. We want Facebook to be a space where people can share their experiences, raise awareness about these issues, and seek support from one another, which is why we allow people to discuss suicide and self-injury.

We work with organizations around the world to provide assistance to people in distress. We also talk to experts in suicide and self-injury to help inform our policies and enforcement. For example, we have been advised by experts that we should not remove live videos of self-injury while there is an opportunity for loved ones and authorities to provide help or resources.

In contrast, we remove any content that identifies and negatively targets victims or survivors of self-injury or suicide seriously, humorously, or rhetorically.

8. Sexual Exploitation of Adults

II. Safety

Policy Rationale

We recognize the importance of Facebook as a place to discuss and draw attention to sexual violence and exploitation. In an effort to create space for this conversation and promote a safe environment, we allow victims to share their experiences, but remove content that depicts, threatens or promotes sexual violence, sexual assault, or sexual exploitation. We also remove content that displays, advocates for, or coordinates sexual acts with non-consenting parties to avoid facilitating non-consensual sexual acts.

To protect victims and survivors, we remove images that depict incidents of sexual violence and intimate images shared without the consent of the person(s) pictured. As noted in the introduction, we also work with external safety experts to discuss and improve our policies and enforcement around online safety issues, and we may remove content when they provide information that content is linked to harmful activity. We've written about the [technology we use to protect against intimate images](#) and the [research that has informed our work](#). We've also put together a [guide to reporting and removing intimate images shared without your consent](#).

9. Bullying and Harassment

II. Safety

Policy Rationale

Bullying and harassment happen in many places and come in many different forms, from making threats to releasing personally identifiable information, to sending threatening messages, and making unwanted malicious contact. We do not tolerate this kind of behavior because it prevents people from feeling safe and respected on Facebook.

We distinguish between public figures and private individuals because we want to allow discussion, which often includes critical commentary of people who are featured in the news or who have a large public audience. For public figures, we remove attacks that are severe as well as certain attacks where the public figure is directly tagged in the post or comment. For private individuals, our protection goes further: we remove content that's meant to degrade or shame, including, for example, claims about someone's sexual activity. We recognize that bullying and harassment can have more of an emotional impact on minors, which is why our policies provide heightened protection for users between the ages of 13 and 18.

Context and intent matter, and we allow people to share and re-share posts if it is clear that something was shared in order to condemn or draw attention to bullying and harassment. In certain instances, we require self-reporting because it helps us understand that the person targeted feels bullied or harassed. In addition to reporting such behavior and content, we encourage people to use tools available on Facebook to help protect against it.

We also have a [Bullying Prevention Hub](#), which is a resource for teens, parents, and educators seeking support for issues related to bullying and other conflicts. It offers step-by-step guidance, including information on how to start important conversations about bullying. Learn more about what we're doing to protect people from bullying and harassment [here](#).

10. Human Exploitation

II. Safety

Policy Rationale

In an effort to disrupt and prevent harm, we remove content that facilitates or coordinates the exploitation of humans, including human trafficking. We define human trafficking as the business of depriving someone of liberty for profit. It is the exploitation of humans in order to force them to engage in commercial sex, labor, or other activities against their will. It relies on deception, force and coercion, and degrades humans by depriving them of their freedom while economically or materially benefiting others.

Human trafficking is multi-faceted and global; it can affect anyone regardless of age, socioeconomic background, ethnicity, gender, or location. It takes many forms, and any given trafficking situation can involve various stages of development. By the coercive nature of this abuse, victims cannot consent.

While we need to be careful not to conflate human trafficking and smuggling, the two can be related and exhibit overlap. The United Nations defines human smuggling as the procurement or facilitation of illegal entry into a state across international borders. Without necessity for coercion or force, it may still result in the exploitation of vulnerable individuals who are trying to leave their country of origin, often in pursuit of a better life. Human smuggling is a crime against a state, relying on movement, and human trafficking is a crime against a person, relying on exploitation.

Do not post:

Content or exhibit behavior that may lead to human exploitation, which includes any of the following:

- Sex Trafficking, covering minors and adults

12. Hate Speech

III. Objectionable Content

Policy Rationale

We do not allow hate speech on Facebook because it creates an environment of intimidation and exclusion and in some cases may promote real-world violence.

We define hate speech as a direct attack on people based on what we call protected characteristics — race, ethnicity, national origin, religious affiliation, sexual orientation, caste, sex, gender, gender identity, and serious disease or disability. We protect against attacks on the basis of age when age is paired with another protected characteristic, and also provide certain protections for immigration status. We define attack as violent or dehumanizing speech, harmful stereotypes, statements of inferiority, or calls for exclusion or segregation. We separate attacks into three tiers of severity, as described below.

Sometimes people share content containing someone else's hate speech for the purpose of raising awareness or educating others. In some cases, words or terms that might otherwise violate our standards are used self-referentially or in an empowering way. People sometimes express contempt in the context of a romantic break-up. Other times, they use gender-exclusive language to control membership in a health or positive support group, such as a breastfeeding group for women only. In all of these cases, we allow the content but expect people to clearly indicate their intent, which helps us better understand why they shared it. Where the intention is unclear, we may remove the content.

In addition, we believe that people are more responsible when they share this kind of commentary using their authentic identity.

15. Sexual Solicitation

III. Objectionable Content

Policy Rationale

As noted in Section 8 of our Community Standards ([Sexual Exploitation of Adults](#)), people use Facebook to discuss and draw attention to sexual violence and exploitation. We recognize the importance of and want to allow for this discussion. We draw the line, however, when content facilitates, encourages or coordinates sexual encounters between adults. We also restrict sexually explicit language that may lead to solicitation because some audiences within our global community may be sensitive to this type of content and it may impede the ability for people to connect with their friends and the broader community.

Do not post:

Attempted coordination of or recruitment for adult sexual activities, including but not limited to:

Filmed sexual activities
Pornographic activities, strip club shows, live sex performances, erotic dances
Sexual, erotic, or tantric massages

Explicit sexual solicitation by, including but not limited to the following, offering or asking for:

Sex or sexual partners
Sex chat or conversations
Nude photos/videos/imagery

Content that is implicitly or indirectly offering or asking for sexual solicitation and meets both of the following criteria. If both criteria are not met, it is not deemed to be violating. For example, if content is a hand-drawn image depicting sexual activity but does not ask or offer sexual solicitation, it is not violating:

Criteria 1: Offer or Ask

Content implicitly or indirectly* (typically through providing a method of contact) offers or asks for:

Nude imagery, or

Sex or sexual partners, or

Sex chat conversations

Criteria 2: Suggestive Elements

Content makes the aforementioned offer or ask using one of the following sexually suggestive elements:

Contextually specific and commonly sexual emojis or emoji strings, or

Regional sexualized slang, or

Mentions or depictions of sexual activity (including hand drawn, digital, or real world art) such as: sexual roles, sex positions, fetish scenarios, state of arousal, act of sexual intercourse or activity (sexual penetration or self-pleasuring), or

Imagery of real individuals with nudity covered by human parts, objects, or digital obstruction, including long shots of fully nude butts

An offer or ask for pornographic material (including, but not limited to, sharing of links to external pornographic websites)

Sexually explicit language that goes into graphic detail beyond mere reference to:

A state of sexual arousal (wetness or erection) or

An act of sexual intercourse (sexual penetration, self-pleasuring or exercising fetish scenarios)

16. Cruel and Insensitive

III. Objectionable Content

Policy Rationale

Content that depicts real people and laughs at or makes fun of their implied or premature death, serious or fatal disease or disability, non-consensual sexual touching, domestic violence, or serious physical injury

We remove explicit attempts to mock victims and mark as cruel implicit attempts, many of which take the form of memes and GIFs.

Do not post:

Content that depicts real people and laughs at or makes fun of their premature death, serious or fatal disease or disability, starvation, physical violence, domestic violence, or serious physical injury

Content that contains sadistic remarks and any visual or written depiction of real people experiencing premature death, serious physical injury, physical violence or domestic violence.

- premature death
- serious physical injury (including mutilation)

The entity or an authorized representative objects to the content, and
Can establish a risk of harm to members of the public.

18. Spam

IV. Integrity and Authenticity

Policy Rationale

We work hard to limit the spread of spam because we do not want to allow content that is designed to deceive, or that attempts to mislead users to increase viewership. This content creates a negative user experience and detracts from people's ability to engage authentically in online communities. We also aim to prevent people from abusing our platform, products, or features to artificially increase viewership or distribute content en masse for commercial gain.

Do not:

Post, share, engage with content, or create accounts, groups, pages, events or other assets, either manually or automatically, at very high frequencies. Attempt to or successfully sell, buy, or exchange site privileges or product features, such as accounts, admin roles, permission to post, pages, groups, likes, etc., except in the case of clearly identified branded content, as defined by our Branded Content Policy.

Require or claim that users are required to engage with content (e.g. liking, sharing) before they are able to view or interact with promised content. Encourage likes, shares, follows, clicks, or the use of apps or websites under false pretenses, such as:

Offering false or non-existent services or functionality (e.g., "Get a 'Dislike' button!")

Failing to direct to promised content (e.g., "Click here for a discount code at Nordstrom"; false play buttons)

Directing users off of Facebook through the deceptive or misleading use of URLs, defined as:

Cloaking: Presenting different content to Facebook users and Facebook crawlers or tools.

Misleading content: Content contains a link that promises one type of content but delivers something substantially different. Deceptive Pop-up websites: Websites that require an action (captcha, watch ad, click here) in order to view the expected landing page content and the domain name of the URL changes after the required action is complete.

Like / Share-Gating: Landing pages that require users to like, share, or otherwise engage with content before gaining access to off-Facebook content.

Deceptive Landing Page Functionality: Websites that have a misleading user interface, which results in accidental traffic being generated (pop-ups/unders, clickjacking, etc.)

Impersonation: The website pretends to be a reputable brand or service by using a name, domain, or content featuring typos, misspellings, or other means to impersonate well-known brands (e.g. www.faceb00k.com, www.face_book.com, using a landing page similar to another, trusted site to mislead visitors).

And other behaviors that are substantially similar to those listed above.

19. Cybersecurity

IV. Integrity and Authenticity

Policy Rationale

We recognize that the safety of our users extends to the security of their personal information. Attempts to gather sensitive personal information by deceptive or invasive methods are harmful to the authentic, open, and safe atmosphere that we want to foster. Therefore, we do not allow attempts to gather sensitive user information through the abuse of our platform and products.

Do not:

Attempt to compromise user accounts or gather sensitive information through unauthorized means, defined as:

Gaining access to any account or user data other than your own without explicit permission from the account owner.

Encouraging or deceiving users and entities to download or run files or programs that will compromise a user's online or data security. Such files and programs will be deemed malicious software or "malware" if they harm or gain unauthorized access to a computer, device, or network.

Acquiring or requesting another user's login credentials, whether explicitly or through deceptive means such as phishing (e.g. fake surveys designed to capture log-in info or links to fake login pages or impostor websites).

Attempting to obtain the sensitive information of others such as usernames, passwords, or other personal information, through deceptive means or the use of malicious software or websites.

Publicly sharing your own or others' login information on platform or through a third party service.

Creating, sharing, or hosting malicious software or malicious browser extensions to compromise accounts or gain access to user data.
Providing online infrastructure, including Web Hosting Services, Domain Name System servers, and ad networks that enables abusive links such that a majority of those links on Facebook or Instagram violate the Spam or Cybersecurity sections of the Community Standards.

20. Inauthentic Behavior

IV. Integrity and Authenticity

Policy Rationale

In line with our commitment to authenticity, we don't allow people to misrepresent themselves on Facebook, use fake accounts, artificially boost the popularity of content, or engage in behaviors designed to enable other violations under our Community Standards. This policy is intended to create a space where people can trust the people and communities they interact with.

Do not:

- Use multiple Facebook accounts or share accounts between multiple people

- Misuse Facebook or Instagram reporting systems to harass others

- Conceal a Page's purpose by misleading users about the ownership or control of that Page

- Engage in or claim to engage in Inauthentic Behavior, which is defined as the use of Facebook or Instagram assets (accounts, pages, groups, or events), to mislead people or Facebook:

 - about the identity, purpose, or origin of the entity that they represent

 - about the popularity of Facebook or Instagram content or assets

 - about the purpose of an audience or community

 - about the source or origin of content

 - to evade enforcement under our Community Standards

- Engage in, or claim to engage in Coordinated Inauthentic Behavior, defined as the use of multiple Facebook or Instagram assets, working in concert to engage in Inauthentic Behavior (as defined above), where the use of fake accounts is central to the operation

Engage in or claim to engage in Foreign or Government Interference, which is Coordinated Inauthentic Behavior conducted on behalf of a foreign or government actor.

21. False news

IV. Integrity and Authenticity

Policy rationale

Reducing the spread of false news on Facebook is a responsibility that we take seriously. We also recognise that this is a challenging and sensitive issue. We want to help people stay informed without stifling productive public discourse. There is also a fine line between false news and satire or opinion. For these reasons, we don't remove false news from Facebook, but instead significantly reduce its distribution by showing it lower in the News Feed. Learn more about our work to reduce the spread of false news [here](#).

We are working to build a more informed community and reduce the spread of false news in a number of different ways, namely by

- Disrupting economic incentives for people, Pages and domains that propagate misinformation
- Using various signals, including feedback from our community, to inform a machine learning model that predicts which stories may be false
- Reducing the distribution of content rated as false by independent third-party fact-checkers
- Empowering people to decide for themselves what to read, trust and share by informing them with more context and promoting news literacy
- Collaborating with academics and other organisations to help solve this challenging issue

22. Manipulated Media

IV. Integrity and Authenticity

Policy Rationale

Media, including image, audio, or video, can be edited in a variety of ways. In many cases, these changes are benign, like a filter effect on a photo. In other cases, the manipulation isn't apparent and could mislead, particularly in the case of video content. We aim to remove this category of manipulated media when the criteria laid out below have been met.

In addition, we will continue to invest in partnerships (including with journalists, academics and independent fact-checkers) to help us reduce the distribution of false

news and misinformation, as well as to better inform people about the content they encounter online.

Do not post:

Video

that has been edited or synthesized, beyond adjustments for clarity or quality, in ways that are not apparent to an average person, and would likely mislead an average person to believe that a subject of the video said words that they did not say AND

is the product of artificial intelligence or machine learning, including deep learning techniques (e.g., a technical deepfake), that merges, combines, replaces, and/or superimposes content onto a video, creating a video that appears authentic.

This policy does not extend to content that is parody or satire or is edited to omit words that were said or change the order of words that were said.

23. Memorialization

IV. Integrity and Authenticity

Policy Rationale

When someone passes away, friends and family can request that we memorialize the Facebook account. Once memorialized, the word "Remembering" appears above the name on the person's profile to help make it clear that the account is now a memorial site and protects against attempted logins and fraudulent activity. To respect the choices someone made while alive, we aim to preserve their account after they pass away. We have also made it possible for people to identify a legacy contact to look after their account after they pass away. To support the bereaved, in some instances we may remove or change certain content when the legacy contact or family members request it.

Visit [Hard Questions](#) for more information about our memorialization policy and process. And see our [Newsroom](#) for the latest tools we're building to support people during these difficult times.

For victims of murder and suicide we will remove the following content if it appears on the deceased's profile photo, cover photo, or among recent timeline posts when requested by a legacy contact or family member of the deceased:

Visual depiction of the object used in the deceased's death
Imagery of the convicted or alleged murderer of the deceased
Content related to the deceased's death

For victims of murder, we will also remove the convicted or alleged murderer from the deceased's profile if referenced in relationship status or among friends.

When we have additional context provided by the legacy contact or a family member of the deceased, we may:

- Remove bullying or harassment violations on a memorialized profile, which normally require the individual to self-report

- Remove praise or support for the death, disease, or harm of the deceased person on a memorialized profile

- Change the deceased's individual's privacy settings from public to friends-only when there is harmful content on the profile

- Change a violating account name on the profile of the deceased individual

24. Intellectual Property

V. Respecting Intellectual Property

Policy rationale

Facebook takes intellectual property rights seriously and believes that they are important to promoting expression, creativity and innovation in our community. You own all of the content and information that you post on Facebook, and you control how it is shared through your privacy and application settings. However, before sharing content on Facebook, please make sure that you have the right to do so. We ask that you respect other people's copyrights, trademarks and other legal rights. We are committed to helping people and organisations promote and protect their intellectual property rights. Facebook's Terms of Service do not allow people to post content that violates someone else's intellectual property rights, including copyright and trademark. We publish information about the intellectual property reports that we receive in our bi-annual Transparency Report, which can be accessed at <https://transparency.facebook.com/>

Upon receipt of a report from a rights holder or an authorised representative, we will remove or restrict content that engages in:

- Copyright infringement

- Trademark infringement

VI. Content-Related Requests and Decisions

We comply with:

- User requests for removal of their own account
