

Privacy Policy

Instagram Inc. ("Instagram") operates several websites including [instagram.am](#), [instagram.com](#), and [Instagram.com](#). It is Instagram's policy to respect your privacy regarding any information we may collect while operating our websites.

Website Visitors

Like most website operators, Instagram collects non-personally-identifying information of the sort that web browsers and servers typically make available, as the browser type, language preference, referring site, and the date and time of each visitor request. Instagram's purpose in collecting non-personally identifying information is to better understand how Instagram's visitors use its website. From time to time, Instagram may release non-personally-identifying information in the aggregate, e.g., by publishing a report on trends in the usage of its website.

Instagram also collects potentially personally-identifying information like Internet Protocol (IP) addresses for logged in users and for users leaving comments on Instagram posts. Instagram only discloses logged in user and commenter IP addresses under the same circumstances that it uses and discloses personally identifying information as described below, except that blog commenter IP addresses are visible and disclosed to the administrators of the blog where the comment was left.

Gathering of Personally-Identifying Information

Certain visitors to Instagram's websites choose to interact with Instagram in ways that require Instagram to gather personally-identifying information. The amount and type of information that Instagram gathers depends on the nature of the interaction. For example, we ask visitors who sign up for an account on [http://instagram.com](#) to provide a username and email address. In each case, Instagram collects such information only insofar as is necessary or appropriate to fulfill the purpose of the visitor's interaction with Instagram. Instagram does not disclose personally-identifying information other than as described below. Visitors can always refuse to supply personally-identifying information, with the caveat that it may prevent them from engaging in certain website-related activities.

Aggregated Statistics

Instagram may collect statistics about the behavior of visitors to its websites. Instagram may display this information publicly or provide it to others. However, Instagram does not disclose personally-identifying information other than as described below.

Protection of Certain Personally-Identifying Information

Instagram discloses potentially personally-identifying and personally-identifying information only to those of its employees, contractors and affiliated organizations that (i) need to know that information in order to process it on Instagram's behalf or to provide services available at Instagram's websites, and that have agreed not to disclose it to others. Some of those employees, contractors and affiliated organizations may be located outside of your home country. If you are using Instagram's websites, you consent to the transfer of such information to them. Instagram will not rent or sell potentially personally-identifying and personally-identifying information to anyone. Other than to its employees, contractors and affiliated organizations, as described above, Instagram discloses potentially personally-identifying and personally-identifying information only when required to do so by law, or when Instagram believes in good faith that disclosure is reasonably necessary to protect the property or rights of Instagram, third parties or the public at large. If you are a registered user of a Instagram website and have supplied your email address, Instagram may occasionally send you an email to tell you about new features, solicit your feedback, or just keep you up to date with what's going on with Instagram and our products. We primarily use our various product blogs to communicate this type of information, and expect to keep this type of email to a minimum. If you send us a request (for example via a support email or via one of our feedback mechanisms), we reserve the right to publish it in order to help us clarify or respond to your request or to help us support other users. Instagram takes all measures reasonably necessary to protect against the unauthorized access, use, alteration or destruction of potentially personally-identifying and personally-identifying information.

Cookies

A cookie is a string of information that a website stores on a visitor's computer, and that the visitor's browser provides to the website each time the visitor returns. Instagram uses cookies to help Instagram identify and track visitors, their usage of Instagram website, and their website access preferences. Instagram visitors who do not wish to have cookies placed on their computers should set their browsers to refuse cookies before using Instagram's websites, with the drawback that certain features of Instagram's websites may not function properly without the aid of cookies.

Ads

Ads appearing on any of our websites may be delivered to users by advertising partners, who may set cookies. These cookies allow the ad server to recognize your computer each time they send you an online advertisement to compile information about you or others who use your computer. This information allows the ad server to, among other things, deliver targeted advertisements that they believe will be of most interest to you. This Privacy Policy covers the use of cookies by Instagram and does not cover the use of cookies by any advertisers.

Privacy Policy Changes

Although most changes are likely to be minor, Instagram may change its Privacy Policy from time to time, and in Instagram's sole discretion. Instagram encourages visitors to frequently check this page for any changes to its Privacy Policy. Your continued use of this site after any change in this Privacy Policy constitutes your acceptance of such change.
